Opinion

We have audited the accompanying financial statements of Christodora, Inc. (a nonprofit organization), which comprise the statement of financial position as of December 31, 2024, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Christodora, Inc. as of December 31, 2024, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Christodora, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Christodora, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Christodora, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Christodora, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited Christodora, Inc.'s 2023 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 19, 2024. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2023, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Note 1 Nature of Organization

Since its inception in 1897 as a settlement house on the Lower East Side, Christodora, Inc. ("Christodora") has created opportunities for New York City (NYC) youth from under-resourced backgrounds to gain skills and knowledge that enable them to thrive as engaged citizens and leaders. Christodora began the work of environmental education when it opened its first nature-based education program in New Jersey in 1908. From there, the focus on providing nature-based learning experiences, became a core part of its mission.

Christodora programs can be found in NYC Department of Education Schools, in a wilderness camp located next to 10,000 acres of preserved land, and in NYC Parks on a Saturday afternoon. Christodora serves approximately 2,000 students each year through its continuum of programs, staying with many of its students from middle school through college years, when they come back to work as counselors and mentors.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP), which recognizes income when earned, contributions upon notification of the existence of the unconditional promise to give, and expenses when incurred.

Financial Statement Presentation

The classification of an organization's net assets and its support, revenue and expenses is based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Without donor restrictions – Net assets available for use in general operations and not subject to donor-imposed restrictions or stipulations.

With donor restrictions – Net assets subject to donor-imposed stipulations that are more restrictive than Christodora's mission and purpose. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, when the donor stipulates that resources be maintained in perpetuity. Net assets with donor restrictions at December 31, 2024 were restricted due to time.

Summarized Comparative Information

The financial statements include certain prior year summarized comparative information in total but not by net asset class or by functional expenses. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with Christodora's financial statements for the year ended December 31, 2023, from which the summarized information was derived.

Note 2 Summary of Significant Accounting Policies (continued)

Cash Equivalents
For the purposes of the financial statements, Christodora considers all investment instruments, including money market accounts, with initial maturity of three months or less as cash equivalents.

Investments
Investments are stated at fair value. Christodora invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the accompanying financial statements.

Revenue Recognition

Contributions and Grants
Contributions and grants received are recorded as support with or without donor restriction depending upon the existence and/or nature of donor restrictions. When a donor restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose restriction is accomplished, or both, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. When donor restrictions are met in the same reporting period, contributions with donor restrictions are reported as contributions without donor restrictions.

Unconditional promises to give cash or other assets are recorded as contributions when the unconditional promise is made. Unconditional promises to give due in subsequent years are reported at the present value of their net realizable value, using risk-free interest rates applicable to the year in which the promise is received. Christodora holds annual fundraising events, wherein donors provide contributions in the form of cash or promises to give. As these events are held annually and the intent is to fund current operations, such promises to give are considered without donor restriction.

Donated marketable securities and other non-cash assets are recorded as contributions at their estimated fair values at the date of the donation.

Donated Services
Donated services are recognized if the services (a) create or enhance non-financial assets or (b) require specialized skills, are performed by people with those skills, and would otherwise be purchased by Christodora. Volunteers also provide fundraising services throughout the year that are not recognized as contributions in the financial statements since they do not meet recognition requirements.

Note 2 Summary of Significant Accounting Policies (continued)

Programs Service Revenue

Christodora receives fees from schools for class field trips to The Manice Education Center ("MEC") and in-classroom Winter Ecology Program and from parents and partner programs in support of students selected to join the summer programs.

Christodora recognizes revenue from program services when the performance obligations of providing the services are met (i.e. when the field trip or program occurs). Payments are required at the time of registration; amounts received in advance are deferred to the applicable period. Due to the nature and timing of the performance obligations, substantially all contract liabilities (deferred revenue) at December 31 of each year are recognized in the following year. The performance obligations for tuition related to summer programs is simultaneously received and consumed by the participants; therefore, revenue is recognized ratably over the course of the summer.

Tuition fees for different programs are based upon the family's income and other factors. The difference between the amount billed and amount received is considered as scholarship to students and appropriated against program income. Most families receive significant scholarships and pay only a token registration fee for programs. Public school partners are also provided with discounted program fees.

Event Revenue

Christodora records event revenue net of the direct benefits to donors in accordance with GAAP when the event occurs. Payments are required at the time of registration; amounts received in advance are deferred to the applicable period.

Property and Equipment

Property and equipment in excess of $2,500 is recorded at historical cost and is depreciated using the straight-line method over the estimated useful life of the assets. Useful lives range between 25 and 39 years for buildings and related improvements; seven and ten years for furnishings; and three to five years for equipment and vehicles. Major expenditures for property and equipment and expenditures that substantially increase the useful lives of existing property and equipment are capitalized. Maintenance, repairs, and minor renewals are expensed when incurred.

When assets are sold or retired, the cost and related accumulated depreciation and amortization are eliminated from the accounts, and any resulting gain or loss is reflected in income for the period.

Tax Status

Christodora is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. Christodora, as a public charity, qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization other than a private foundation under Section 509(a)(2).

Note 2 Summary of Significant Accounting Policies (continued)

As of December 31, 2024, management has determined that there are no significant uncertain tax positions requiring recognition in Christodora's financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Accordingly, actual results could differ from those estimates.

Functional Allocation of Expenses

Expenses are classified to the program for which they were incurred and are summarized on a functional basis in the statement of functional expenses. Accordingly, certain costs have been allocated between the program and the supporting services benefited.

Program Services includes costs related to operating the following:

Christodora's wilderness camp, MEC, located in the Hoosac mountain range of northern Berkshire County in Massachusetts, provides the main facility for programs in environmental education, wilderness immersion and development of social-emotional skills. MEC offers students between the ages of 11 and 18 a carefully constructed ladder of opportunities beginning with the one-week Introductory Course for sixth graders, proceeding to longer Foundation and Advanced courses, and culminating with intensive High School Leadership Training and BRIDGE career readiness programs. Building on foundations of the "3 Rs" (positive risk-taking, respect and responsibility), students set goals, work on team projects, study ecology and leadership and master challenging backcountry adventures. Half of the staff are returning alumni, providing intensive small group support, and serving as powerful role models for success.

MEC also hosts school groups for multi-day field trips during the fall and spring, often in connection with the in-classroom Winter Ecology Program (WEP).

The Winter Ecology Program brings teams of Christodora environmental educators to over 70 middle and high school classrooms in under-resourced neighborhoods for an engaging and hands-on 7-week Introduction to Ecology course. The curriculum is customized to meet the needs of each classroom and teacher and is aligned with NY State and Next Generation Science Standards. This hands-on course inspires many students to become involved in our afterschool and Summer Ecology and Leadership programs. In a usual year, 22 school groups take transformative 3-day field trips to the MEC.

Through the Elliman Scholars program, the most motivated and dedicated students can attend partner programs including National Outdoor Leadership Schools ("NOLS"), the Teton Science Schools, Outward Bound and the Environmental Studies Summer Youth Institute at Hobart and William Smith Colleges.

Note 2 Summary of Significant Accounting Policies (continued)

Christodora's Community of Rising Environmentalists and other weekend/out-of-school time programs enable students to stay active and connected year-round and to become agents of renewal within their communities and in natural areas throughout the city. With expert peer leadership, they perform community service, conservation and citizen science projects and continue Christodora's traditions of environmental stewardship, community engagement and leadership. Students gain exposure to career pathways and develop job readiness skills.

General and administrative – involves the direction of the overall affairs of Christodora, which include accounting, personnel, administration, and related areas.

Fundraising – involves the development of funding sources to aid Christodora in the raising of funds for its programs.

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salaries of employees and fees to independent contractors, payroll taxes, postage and delivery costs, office supplies and expenses, rent, and insurance which are allocated on the basis of estimates of time, effort, and the percentage of space used.

Bad Debt Policy
Christodora estimates an allowance for doubtful accounts based on the probability of default and historical rate of losses. Christodora writes off receivables when all reasonable collection efforts have been exhausted and likelihood of collection is determined to be remote. Christodora considers all receivables at December 31, 2024 to be fully collectible; accordingly, no allowance for doubtful accounts is considered necessary.

Advertising and Promotion Costs
Advertising and promotion costs are expensed as incurred.

Leases
Christodora recognizes a right-of-use (ROU) asset and operating lease liability for all leases greater than one year and do not include an option to purchase the underlying asset that Christodora is reasonably certain to exercise. Christodora does not separate lease and non-lease components of leases. Variable payments that are not determinable at lease commencement are not included in the measurement of ROU asset and operating lease liability. Accordingly, such payments are recognized in the period in which the payments are made. Christodora has elected to use a risk-free rate to calculate the present value. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

Note 2 Summary of Significant Accounting Policies (continued)

Fair Value Measurement

GAAP requires that assets and liabilities carried at fair value to be classified and disclosed in one of the following three categories:

- Level 1 – Inputs that reflect the unadjusted quoted market prices in active markets for identical assets that the organization has the ability to access at the measurement date, and where transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 – Inputs other than unadjusted quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Inputs include quoted market prices for similar assets in markets that are not active, markets in which there are few transactions, prices that are not current or process that vary substantially over time.

- Level 3 – Inputs that are unobservable for the asset and that include situations where there is little, if any, market activity for the asset. The inputs into the determination of fair value are based upon the best information in the circumstance and may require significant management judgement or estimates. Investments in this category generally include equity and debt positions in private companies and interests in alternative investments that cannot be redeemed in the near future.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for estimating fair values of significant financial instruments as of December 31, 2024.

Equity securities and mutual funds – Valued at the closing price reported on the active market on which the individual securities and mutual funds are traded.

Investments in limited partnerships – Valued at the net asset values ("NAV") (as reported by the external managers) as a practical expedient for fair value measurement and are excluded from the fair value hierarchy.

The valuation process for investments at NAV includes evaluating the operations and valuation procedures of external investment managers and the transparency of those processes through background and reference checks and attendance at investor meetings. In determining the fair value of investments, the finance committee reviews periodic investor reports, interim and annual audited financial statements received from external investment managers, and material quarter over quarter changes in valuation; and assesses the impact of macro market factors on the performance. The finance committee reviews investment transactions and monitors performance of external investment managers.

Note 2 Summary of Significant Accounting Policies (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Christodora believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Impairment of Long-Lived Assets
At least annually, and more frequently if warranted, Christodora assesses its long-lived assets mainly comprised of property and equipment for impairment. At December 31, 2024, Christodora has determined that no such impairment existed.

Note 3 Concentration of Credit Risk

Christodora maintains cash balances at financial institutions in the New York City area. Accounts are insured by the Federal Deposit Insurance Corporation up to $250,000 per financial institution. At times balances may exceed the insured limit during the year. Christodora believes the risk of any loss is minimal.

The Securities Investor Protection Corporation (SIPC) insures cash and securities, up to $500,000, which includes $250,000 specifically for cash, in the event of a member brokerage firm's financial failure. At times, the balance of accounts may exceed the insured limits during the year. Investments in limited partnerships are not insured nor guaranteed by the SIPC.

Note 4 Investments and Fair Value Measurement

Investment income reported in the statement of activities consists of the following at December 31, 2024:

Interest and dividends	$ 29,969
Change in net asset value of limited partnership interest	1,056,770
Realized gains, net	894
Unrealized gains, net	397,266
Investment fees	(331,292)
Total investment income	$ 1,153,607

Christodora has invested in limited partnerships whose primary purposes are to maximize long-term returns while emphasizing preservation of capital. The investment fair value of $4,954,267 is based on amounts reported by the limited partnerships since they are not publicly traded. Redemption requests are at the sole discretion of the investment managers of the partnerships. There are no unfunded commitments as of December 31, 2024.

Note 4 Investments and Fair Value Measurement (continued)

The Board of Directors has resolved that certain amounts as determined by the finance committee, as part of the budget approval process, be transferred from the assets held in investments (including cash held for investing activities) to operations. For 2024 the Board of Directors authorized that $875,000 be contributed for general operations.

Investments at December 31, 2024 are comprised of the following:

Investment Category	Level 1	Level 2	Level 3	Fair Value
Common stocks	$ 3,852,160	$ -	$ -	$ 3,852,160
Mutual funds	13,435	-	-	13,435
	$ 3,865,595	$ -	$ -	3,865,595
Investments measured at net asset value				4,954,267
Total investments				$ 8,819,862

2025	$	72,386
2026		54,124
2027		54,124
2028		54,124
2029		54,124
Thereafter		121,778
Total lease payments		410,660
Less: interest		(9,163)
Present value of lease liabilities	$	401,497

Note 8 Available Resources and Liquidity

Christodora regularly monitors liquidity to meet its operating needs and other contractual commitments. Christodora has access to the liquidity in the form of cash, receivables, and investments. For purposes of analyzing resources available to meet general expenditures over a 12-month period, Christodora considers all expenditures related to its ongoing mission and other activities as well as the conduct of services undertaken to support those activities to be general expenditures.

Note 8 Available Resources and Liquidity (continued)

Christodora's financial assets available within one year of the statement of financial position date for general expenditure are as follows:

Cash and cash equivalents	$ 196,786
Unconditional promises to give	85,387
Investments	8,819,862
Subtotal financial assets	9,102,035
Amounts not available for general expenditure within 1 year due to donor restrictions	(37,500)
	$ 9,064,535

Note 9 Subsequent Events

Management has evaluated subsequent events through October 3, 2025 the date these financial statements were available to be issued.
